

USC-7335 Care label

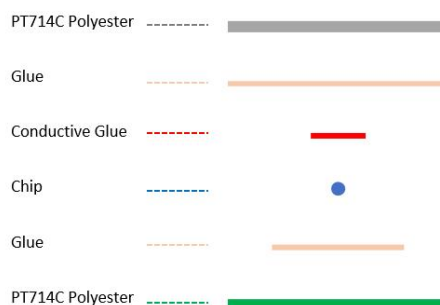

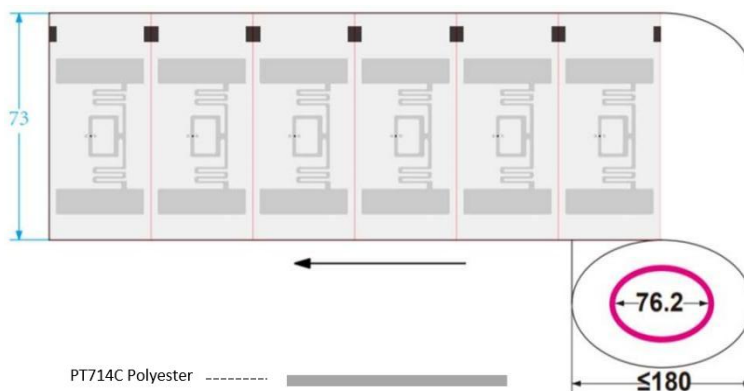

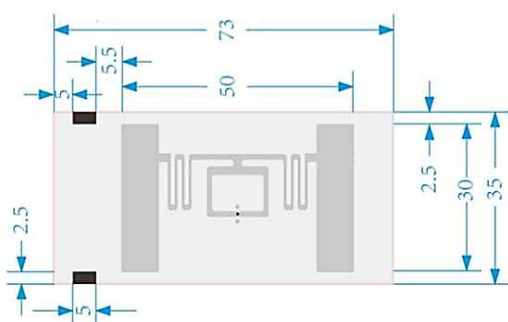

Washable UHF Care Label

USC 7335 care label is UHF RFID tag integrate a laser shaped Aluminum foil antenna by heat stamp based on a fabric substrate, which is most soft and flexible structure, and printable, washable care label can withstand 30+ domestic washing, as an outstanding solution for high-end apparel brands.

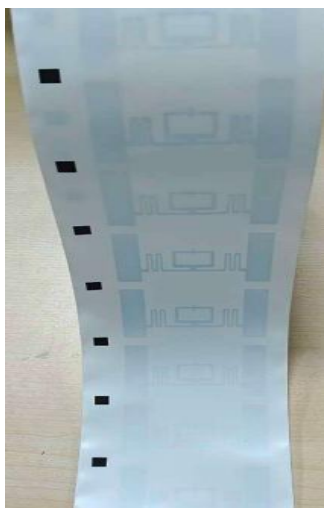

Label Characteristics

Label size (mm)	73x35
Transponder / inlay size (mm)	50x30
Horizontal / Vertical Tolerance (mm)	±0.5/ ±1.5
Radius (mm)	0
Thickness (mm)	0.168 ±0.024
Color	White or custom
Printing color	Black
Label format	On reel
Face / base material	PT714C Polyester tape
Package size	4000 pcs/ Roll ; 8 Roll / CTN
	44*44*16 cm / 20Kg /CTN

RFID spec.

Integrated Circuit (IC)	Impinj R6-P (Optional)
Operating frequency	860~960 MHZ
RFID air interface protocol	EPC C1 Gen2 ,ISO18000-63
Horizontal / Vertical Tolerance (mm)	100,000 Programming cycle, 10 years data retention
ESD voltage immunity	2 KV peak HBM
EPC / TID memory	EPC 128 bits / 96 bits
Data retention	10 years
Access pass	32 bits
Storage life	1 year
Storage Environment	20°C~30°C (68°F ~86°F)
